Re: Off-Site Rule Acceptability Determination
Sumner Landfill
IEPA# 1010100002

Dear Ms. Hogan:

This letter is in response to your September 16, 2011 letter to William Damico, of my staff, regarding the Veolia ES Hoosier landfill, Claypool, Indiana request for CERCLA Off-Site Rule acceptability.

Pursuant to 40 C.F.R. § 300.440 (b), my staff has determined that Republic Services landfill, Sumner, Illinois meets the acceptability criteria. Therefore, Republic Services Sumner landfill located at Route 250, CR 550 East, Sumner, Illinois is acceptable to receive waste from CERCLA sites.

This acceptability determination is based on the assumption that only wastes which comply with the permits issued to Republic Services Sumner landfill, Sumner, Illinois will be accepted. It is your responsibility to review any proposed waste streams for compliance with the permits for your facility.

Please note that this determination is based on the available information at the time of the review. Your status could be changed any time relevant information becomes available according to the procedures in 40 C.F.R. § 300.440 (d). Generators who need to use a currently acceptable facility should verify the current acceptability of any facilities they wish to use with the appropriate Regional Off-Site Rule Contact(s). If you have questions, please contact Mr. Damico at (312) 353-8207.

Sincerely,

A handwritten signature in blue ink that reads "Gary Victorine".

Gary Victorine, Chief
